

Barley Mow Dental Care

Private Fees April 2007

Oral Health Assessment

Normal	£35
With simple scale & polish	£42
Patient Under 23 yrs	£20

New Patient Consultation £67

Emergency Consultation £37

Bitewing Radiographs £10

Hygienist Visit (30 minutes) £42

Silver Amalgam Restorations From £63

Composite (Tooth Coloured) restorations

Front teeth	From £64
Back Teeth	From £70

Extractions

Simple extraction of a single tooth From £64

Dentures

Denture Repair (usually need to be sent away)	From £30
Complete upper or lower denture	From £500
Complete upper and lower dentures	From £650
Acrylic partial dentures	From £250

Veneers, Crowns, Inlays & Bridge Work

"Authentic" Porcelain Veneers	£245
"Solidex" Tooth Coloured Inlays	£254
Crowns	
Porcelain Fused to Metal	£332
"Inceram" (metal Free)	£372
"Authentic" (metal Free)	£372

There are many types of crowns, inlays and veneers, each with its specific indications. They can be ideal for restoring badly damaged teeth or improving the appearance of crooked, discoloured or heavily filled teeth.

Bridges require individual estimates but are in the region of £250 – 375 per tooth involved. and are often the ideal way to restore missing teeth.

Intravenous Sedation £65

Ideal for treating nervous patients who find treatment difficult to tolerate

Root-Fillings From £125

Fees vary according to number of roots and complexity. Treatment of teeth that have already been root treated will attract a higher fee. The fee includes restoration of the tooth with a like-for-like material. An additional fee may be charged for tooth-coloured restorations in posterior teeth.

Please note that price lists can only give an indication of the likely cost of treatment.

Your dentist will give you a detailed estimate when a treatment plan is formulated, and even this might have to be changed as the treatment progresses.

If you are unclear please ask and we will endeavour to provide the information or explanation you need.

Dental Care Plan Patients

Plan patients fee levels are 10% less than the equivalent private fees, except where laboratory fees are involved, in which case only our component of the charge is 10% less.

If a large treatment plan is required then this can be paid for over several months by direct debit, but usually in advance of, or during treatment.

Quality Dental Care

SmileCheck

BARLEY MOW
Dental Care

For a Healthier, More Attractive Smile

- I wish my teeth were whiter and brighter.
- I'd like to replace my old unsightly metal fillings with a natural looking material.
- I have crowns on my front teeth that don't match my natural teeth.
- I have some missing teeth that affect my appearance or eating.
- Some of my teeth are discoloured, unsightly or misshapen
- My gums bleed when I brush them and sometimes I get a bad taste in my mouth, or bad breath.
- My teeth keep breaking and I'd like to have them strengthened.
- My dentures are loose or uncomfortable.
- My teeth are sensitive to temperature or to bite hard on.
- I have a denture which looks/feels false.

Veneers, Crowns, Inlays & Bridge Work
